

Articulation Agreement between Washtenaw Community College and Brooks Institute

The purpose of this agreement is to facilitate the transfer of students graduating from Washtenaw Community College into the ninth session of the Bachelor of Fine Arts Degree Program in Professional Photography at Brooks Institute. The conditions and stipulations of the agreement are listed below.

1. Students must graduate from the Washtenaw Community College photography program with an Associates Degree in Photography.
2. The student must have a cumulative GPA of 3.0.
3. Students must present an acceptable portfolio (electronic okay).
4. Washtenaw Community College students must have proven competency and knowledge of the 4 x 5 view camera. This competency will be judged via review of their college transcript of courses successfully completed and/or a portfolio review of their 4 x 5 camera images.
5. Since most students will be lacking some of the Arts, Letters & Sciences and business curriculum requirements, interested applicants are encouraged to take appropriate courses at Washtenaw Community College or another accredited educational institution before transferring to Brooks Institute.
6. Articulation students transferring into Brooks Institute will be placed in courses deemed appropriate for their skill/knowledge level, but will not be required to take more than 10 sessions (one year and eight months) in residence provided they meet graduation requirements.
7. Washtenaw Community College students that have taken course work applicable to Upper Division courses at Brooks Institute will have a Brooks Institute faculty member determine the applicability of those courses to requirements of Brooks Institute's Upper Division concentrations. However, it is expected that all incoming students from Washtenaw Community College will spend a minimum of 10 (eight-week) sessions in residence at Brooks Institute as full-time enrolled students. The courses taken in residence must include those that meet the concentration requirements, and other general education and business classes to meet graduation requirements.
