

Title: Modern Day Guernica

Description: Inspired by Picasso's Guernica

Reference: The Guernica bombing inspired Picasso. Within 15 days of the attack, Pablo Picasso began painting this mural. On completion Guernica was displayed around the world in a brief tour, becoming famous and widely acclaimed. This tour brought the Spanish civil war to the world's attention. Guernica epitomizes the tragedies of war and the suffering war inflicts upon individuals. This monumental work has eclipsed the bounds of a single time and place, becoming a perpetual reminder of the tragedies of war, an anti-war symbol, and an embodiment of peace.
