

Title: Musical Video

Description: Create a short iMovie for a musical piece.

Procedure:

- Select a musical piece for this short iMovie.
- Take a number of personal digital photos that metaphorically addresses your interpretation of the musical piece.
- Once the visuals are assembled and the sequencing of these is established, add all necessary visual effects appropriate to your message.
- Scale the graphics as you format them as jpeg files.
- Import the graphics into iMovie in sequence.
- Drag visuals into the time line.
- Explore movie techniques accessible in the iMovie software such as title pages, frame blends and other visual effects.
- Import the mp3 music file into the time line
- Save the file in the largest and highest resolution presentation.
- Print screen captures for preparing your portfolio. Include a CD/DVD in the portfolio. Create a sleeve on the portfolio page for the CD/DVD insert.
