

NATURE

Title: Nature Reflection

Description: Reflect on a nature experience and produce a visual equivalency

Procedure:

- Begin this assignment by thinking of a particular “nature” experience you have had in your lifetime. It is important that it is personal and there is a story behind your selection. The event may be a very pleasant experience, perhaps, a picnic, family reunion in the park, a walk through the woods with a friend. Or, the experience was horrific, like a tornado, airplane emergency, or hurricane.
- Write your story. Keep the copy to just a few paragraphs. Give your story a title and subtitle for the story.
- Gather visuals from your personal collection; take digital photographs that simulate the event, or scan the royalty free stock photos that you feel best characterize the experience.
- With your story written and typed, your image selected, explore software tools and techniques to give voice to the text and coloration and effect to the graphic.
- Compose the text and graphic/s into a dynamic composition on 11” x 17” page.
