

Digital Photo Imaging Pho 127

Ultimately, my hope is to amaze myself. The anticipation of discovering new possibilities becomes my greatest joy." Jerry Uelsmann

Assignment 1 - Patterns, Shapes, Textures and Color

Photography is an exploration of light and time. A photographic image is a slice of illuminated time. Many of the interesting things a photographer sees are abstractions made up of repeated patterns in what surrounds us. Others react to shape of things. Textures captured at an interesting angle or point of view can be captivating and color by itself can be compelling.

Pick one of the themes and shoot at least 30 images. Use Lightroom to rate your photos. Pick your best 12 and make a contact sheet in Lightroom and print it. Save a copy of the contact sheet as a JPG file in the following way: contact-your name.jpg, i.e., "contact-smith.jpg" and put it in the Class Folder called "Contact Sheets"

Pick your best shot, crop, make contrast, tonal, color corrections and sharpen in the Lightroom Develop Module and make an 8 "X 10" print using the Epson 2400.

Save a copy as a .JPG file in the following way: ass1-your name.jpg, i.e., "ass1-smith.jpg" and put it in the Class Folder called "Assignment 1." You will share this image and the contact sheet during the first critique.

This print will be part of your final portfolio.

Have fun.
