

Digital Photo Imaging

Pho 127

Digital Discussions

Periodically in this class we will break into small groups to share resources, information and opinions about topics that are relevant to digital imaging. The groups will change and so will the theme of the discussions. You will be asked to write a paragraph or two about a particular topic and post it online at <http://smith-pho127.pbwiki.com/>

Topic 3:

Find an article on the Internet or in a magazine that relates to some element of digital imaging. You can use the list of online photo magazines on the class web site, if you like, or find a source of your own. Read the article and review it for the class in a couple of paragraphs. Tell us what it was about, why you found it interesting enough to report about and any other aspect of the article you found to be important.

Go to the Wiki and add your review to the discussion on the **Digital Discussions 3** page.
