

01	This page provides a ruler to identify vertical positions on pages of the textbook.	01
02	This PDF page should be printed using Adobe Reader.	02
03	There should be 42 rows on the table, all on one page.	03
04	My notes for the textbook include references to	04
05	vertical positions on pages. Use this sheet as a	05
06	ruler to locate those vertical positions, with the top of Row 01 of this	06
07	sheet aligned with the page number at the top of the textbook page. If you do that then	07
08	Row 42 should be close to the bottom of the text of the page in the textbook.	08
